

CONTINUOUS EDUCATION COMMITTEE

INTRODUCTION

The dental profession is continuously experiencing revolutionary breakthroughs and fast growing updates, and it's the responsibility of dental educators to keep up with that rapid progress and provide their graduates with the art and science of modern dentistry. As one of the most prestigious universities in Egypt, MSA is dedicated to upgrade the professional level of its graduates and the Faculty of Dentistry sustains an ongoing effort to support the alumni and Arab dentists, complement the academic and scientific goals of the university, and achieve one of the most important strategic goals of serving the community.

In line with these efforts, the continuous Education committee was established in Sep 2017, as one of the quality unit subcommittees.

Its main purpose is to offer quality postgraduate workshops for both general dentists and dental specialists, in order to ensure long term ongoing education, and eventually establish a well distinguished center for dental continuous education in the Middle East region.

Scope and goals:

- . 1- Offer periodic workshops, lectures and seminars in different dental specialties
- . 2- Introduce the most recent techniques, materials and technologies in the dental profession worldwide. To the young professionals and fresh graduates.
- . 3- Run educational courses in several up-to-date areas of interest and modern dental practices.
- . 4- Optimize dentists' clinical skills and scientific knowledge in various dental branches
- . 5- Address the common oral health issues and their effective management policies
- . 6- Introduce the most recent evidence-based treatment modalities in different dental situations
- . 7- Create a channel of communication between MSA dental alumni and the faculty to ensure fulfilling their professional needs and requirements
- . 8- Address the educational needs of dental professionals and relate those needs to the industry.
- . 9- Provide a venue for prestigious dental companies to notify dentists of their latest products in the world market
- 10- Establish a high quality training center for dentists
- 11- Provide hands on training on recent technologies and treatment procedures.

12- Distribute awareness of new policies and guidelines in several dental perspectives

13- Contribute to the better conduction of ethics and legitimate practice in dental

Profession.

Policy and guidelines:

- Programs of workshops are planned and scheduled for each academic year
- Yearly program will be announced on the faculty web site and the social media channels as well as in the campus at the start of each academic year
- Surveys for the needs of dental MSA alumni will be conducted beforehand
- Enrollment is open for interns as well as graduates of all Egyptian and non- Egyptian dental faculties
- MSA dental alumni will have a discounted fees for all paid workshops, the percentage of which will range from 10: 50 %.
- Attendees will be awarded certificate at the end of each course including the credit hours achieved.
- Dental suppliers are allowed to sponsor workshops and exhibit their products.
- For free workshops, that is sponsored by the MSA university, registration priority is for MSA alumni and interns

Fees and cancellation policy: Fees are estimated and announced on the university web site. Online registration is required. Refunds will not be issued for participant no-shows or cancellations less than three weeks prior to course date.
